LMH/Oxford Prerequisite	Notes on US equivalents
A Calculus for Economics	Any calculus course that covers basic integration, partial differentiation, constrained optimisation and the implicit function theorem (informally).
B Introductory Probability & Statistics	A one-semester course, possibly called <i>Statistics for Economics</i> or <i>Statistics for Economics and Business</i> that satisfies the home university's prerequisite for <i>Econometrics</i> .
C Econometrics	<i>Introductory Econometrics</i> , <i>Econometrics</i> or <i>Applied Econometrics</i> depending on the university.
D Micro Theory I	<i>Intermediate Micro (with calculus)</i> OR <i>Intermediate Micro</i> PLUS <i>Calculus for Economics</i> . At some universities (but very few) <i>Principles of Microeconomics</i> may reach the required level. Students should submit a detailed syllabus for review if they wish their Principles course, or another course, to be considered.
E Micro Theory II	<i>Advanced Microeconomics</i> . At some universities (but very few) <i>Intermediate Microeconomics</i> or <i>Microeconomic Theory</i> may reach the required level. Students should submit a detailed syllabus for review if they wish their Intermediate course, or another course, to be considered.
F Introduction to Game Theory	Any <i>Microeconomic Theory</i> or <i>Game Theory</i> course that covers non-cooperative game theory with discrete and continuous actions, simultaneous, sequential and repeated games and solution concepts including dominance, Nash equilibrium and subgame perfect equilibrium.
G Macro Theory I	<i>Intermediate Macro (with calculus)</i> OR <i>Intermediate Macro</i> PLUS <i>Calculus for Economics</i> . At some universities (but very few) <i>Principles of Macroeconomics</i> may reach the required level. Students should submit a detailed syllabus for review if they wish their Principles course, or another course, to be considered.
H Macro Theory II	<i>Advanced Macroeconomics</i> . At some universities (but very few) <i>Intermediate Macroeconomics</i> or <i>Macroeconomic Theory</i> may reach the required level. Students should submit a detailed syllabus for review if they wish their Intermediate course, or another course, to be considered.
